THE FINEST COMFORT SHOES ON EARTH
Our feet carry us reliably through life. How freely and naturally we walk, stand, run, jump, or dance affects our well-being. At the same time, the way we live our lives today can put our feet under strain. How can we keep from overtaxing our feet while maintaining their mobility and health?

Our answer: with the right footwear – developed by bringing together medical knowledge with traditional craftsmanship. For more than 70 years, our company has stood for first-class functional and comfortable shoes to meet a variety of demands. In our modern factory in Hassfurt, Germany, we not only manufacture our wide range of shoe solutions but also design them ourselves. Experienced orthopedic shoemakers are already involved in the design of our foot molds and support the expansion of the product range.

"Made in Germany" is the affirmation of our responsibility as an employer in the region. At the same time, this seal of excellence embodies our innovative spirit and our commitment to uncompromising quality. Each individual step – from design to production to quality control – is carried out with the utmost care on our own premises. A majority of our models are hand-sewn. After careful selection, we use materials almost exclusively from Germany and other European countries.

This catalog presents only part of our current offer. We therefore ask that you visit our specialist dealers and obtain competent advice there. All models are usually available on short notice. Discover your personal FinnComfort® favorites and pamper your feet!

### WE USE NATURAL MATERIALS FOR OUR PRODUCTS.

Skin-friendly, vegetable-tanned top leather and two layers of jute fiber ensure superior moisture absorption and an excellent climate for the feet. For more information, see page 44.
WITH THE FINNCOMFORT® SOFT FOOTBED

The soft footbed, a cushioned, super comfortable footbed, features an extra layer of foam.

This long-lasting material consisting of resilient memory foam promises a very soft step. It is ideal for sensitive feet, because the entire body weight is gently absorbed at every step.

For more information, see page 22.
MANUFACTURED FROM NATURAL MATERIALS

**LEATHER**

**Vegetable tanned**
During vegetable tanning, the tanning agents are derived from various woods and barks. Free of chemical additives – eco-friendly for a healthy (foot) climate.

**NATURAL RUBBER**

**Ecological and sustainable**
For producing latex, the rubber tree’s bark is scored to obtain the sap. This natural product is used in the FinnComfort® footbed as the basis for the resilient cushioning material and as a binder and adhesive for cork footbeds and top leather.

**CORK**

**The fascinating noble natural product**
The sustainable raw material is extracted from the bark of the cork oak tree and has very special properties: It is lightweight, flexible, absorbs shocks and resists most bacteria. It also insulates against cold and heat. Precisely why cork is the main component of every FinnComfort® footbed.

**JUTE**

**The golden fiber**
The glossy golden jute fibers in the FinnComfort® footbed ensure additional stabilization and better humidity absorption. This material is specially planted for harvest. Thus, resources are not destroyed, but specially created.

All shoes are developed by FinnComfort® itself and manufactured in Germany. This is the only way for us to ensure continuous quality in our products.
WE STILL SEW OUR OWN.

More than 70 years of extensive expertise and experience in shoe manufacturing have set an unmatched standard of quality at FinnComfort®.
A warm lining made of cozy lambskin or natural wool provides excellent natural warmth in winter.

The soft material adapts perfectly to your feet and forms an insulating layer of air that warms wonderfully without making your feet sweat. Because of their natural function, lambskin and wool work as a climate control system, that regulates the temperature and humidity.

So bring winter on!
Hiking & Trekking Shoes
Weatherproof & Sure-footed Outdoors

In wind and any weather, SympaTex® is especially comfortable. Sheer, tear-resistant SympaTex® membrane makes leather shoes watertight on the outside but breathable on the inside. This provides a pleasant foot climate.

The models on this page are equipped with SympaTex® Membrane.
Our feet are part of the body that takes the most punishment. They carry our entire weight and are constantly stabilizing the body’s center of gravity. Finnamic’s rocker heel design encourages gentle and low-impact heel strike and gently and effortlessly guides the motion impulse from the lateral foot via the medial forefoot to the big toe. The broad, flat and stable mid-section may relieve unnecessary strain on the foot while stabilizing the body. Finnamic provides optimum balance and fit.

“I can tell that walking a lot is really hard on my feet. That’s why I want to consciously do something to give my feet a break. Finnamic has been a fantastic discovery for me.”

Padded topline for pleasant, comfortable walking

Rockered heel design for protective and cushioned walking

FinComfort’s® soft footbed provides ideal cushioning and shock absorption

Wide and flat mid-section for secure and relaxed standing

Healthful anatomical design provides optimal support, improves posture and promotes natural gait

Finest calfskin lining is particularly kind to the skin

Elastic toe cap means lasting freedom of movement for toes

Rockered forefoot section encourages natural heel-to-toe rolling motion

Fitting guide see page 75

“Finnamic fits like a glove. I can feel how it supports the natural rolling motion of my feet.”
Soft materials, shock absorbing outsoles and a padded footbed let you stand and walk comfortably and meet your special orthopedic needs. Special consideration is given to the needs of those suffering from arthritis and diabetes. For example, the shoes offer plenty of room for the toes. The width of the forefoot is generously cut and the hold of the heel is very secure, ensuring optimal guidance for your foot.

**IDEAL FOR PEOPLE WITH:**
- Hallux Valgus (bunions)
- Hallux Rigidus (arthritis of the big toe)
- deformed toes
- swollen feet
- highly sensitive feet

**FINNSTRETCH**

**FOR ESPECIALLY SENSITIVE FEET**
AN OUNCE OF PREVENTION IS BETTER THAN A POUND OF CURE

Sensitive pressure points are unpleasant and make walking and standing difficult. Therefore, after intensive research in collaboration with doctors and orthopedic technicians, FinnComfort® has developed the prevention shoe.

These special FinnComfort® models are made of extra-soft leather. Additionally, our prevention shoes have no pressing seams, but greater width and additional cushioning in the upper and instep. Heel counters lengthened on both sides give your foot optimal guidance and ensure a natural rolling movement.

189 million people worldwide live with diabetes. When the disease is diagnosed too late or poorly controlled, it may lead to the possibility of developing diabetic foot syndrome. Vascular and neurological abnormalities frequently damage the foot. Neuropathy, decreased blood circulation through arteries of the lower extremities, wounds that do not heal, even amputation of the foot is not uncommon in a diabetic. Well-fitted and high quality extra depth therapeutic walking shoes can help counteract this syndrome before foot ulcers occur or an amputation becomes imminent. If you suffer from repeated foot sores or have wounds increasingly difficult to heal, then FinnOrtho by FinComfort® might be the perfect shoe for you.

An ultra soft footbed with an antiseptic lining and stable support system is available upon request and sold separately. Thus protected and minimally stressed, wounds can heal and infections can be avoided.

INFORMATION

REMOVABLE FOOTBEDS

The Super Comfort Footbed
The anatomically-shaped Super Comfort Footbed enhances the natural heel-to-toe rolling motion via the heel, lateral foot, medial forefoot and big toe.
The all natural Classic Comfort Footbed may be removed overnight for airing. It can also be hand washed with mild soap and warm water 30°C / 86°F.

The Reflex Zone Massage Footbed
The reflex zone massage footbed is like a little daily spa treatment. It provides a gentle massage for the sole of your foot. Start by wearing them for five minutes a day, then gradually increase the time to as much as an hour a day (no more).
Reflex zone footbeds are not suitable for diabetics!

The Reflex Zone Massage Footbed can be replaced again with the Super Comfort Footbed. New footbeds can be obtained at any time from our specialist retailers.

THE FOOT’S NATURAL ROLLING MOTION

LONg LASTING AND COMFORTABLE

Foot motion guidance thanks to the solid heel counter
Every step is cushioned by the concave depression in the heel base and shock-absorbing materials in our outsoles
Air circulation and climate control thanks to ventilation channels in all closed hand-stitched shoes

Breathable thanks to finest leather lining
Flexible toecap eliminates pressure points

1. Pleasant to wear thanks to padded topline
2. The anatomically formed, extremely comfortable footbed makes walking comfortable.
3. Breathable thanks to finest leather lining
4. Flexible toecap eliminates pressure points

SPECIAL FEATURES

Rich suede lining.
Skin-friendly and organically tanned with pure vegetable dyes

Resilient cork/latex
Anatomical support

Air ventilation holes

Anatomically shaped heel cup
SOCKS THAT SIMPLY FEEL GOOD

Active support and anatomically proper pressure distribution support healthy circulation and help prevent vein problems. These socks are also ideal against swelling of the legs when standing or sitting for long times and help prevent travel-related venous thrombosis. The comfortable stocking for everyday use.
